# Polish energy storage battery companies

## Overview

---

Will PGE build a battery energy storage system in Poland?

Polish state-owned power company PGE Group is planning to build a battery energy storage system (BESS) of at least 200 MW/820MWh in the north of Poland. The project has obtained the first license promise in Poland for electricity storage, PGE said in a press release.

Why is Poland a key player in the battery industry?

Poland has become a key player in the global battery industry, becoming the country with highest battery production in Europe. As the demand for lithium-ion batteries is getting higher over time, Poland has positioned itself as a major production hub for sustainable energy solutions in the world.

Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

Where are the largest lithium battery factories in Europe?

In Poland, they established one of the largest lithium battery factories in Europe, located in Biskupice Podgórne. This new factory will help them expand their business and become a major battery supplier for major automotive brands in Europe. Their main products include lithium-ion batteries and energy storage systems.

What does ENEX 2025 tell us about energy storage in Poland?

The insights from Enex 2025 reinforce that BESS is no longer an emerging trend—it's a critical part of Poland's energy transition. With favorable market reforms and growing investment interest, the country is well-positioned to

capitalize on energy storage innovations.

Where are lithium battery electrolytes made?

They started operating in Poland by building their first Polish plant, aiming to produce 40.000 tonnes of electrolytes for lithium batteries annually. Their goal is to become one of the largest lithium battery electrolyte producers in Europe.
