# Portable temporary power box

## Overview

---

What is a temporary power distribution box?

Temporary power distribution boxes and carts serve as hubs to connect electrical loads and have multiple outlets to distribute power. Also called power spider boxes, they provide temporary power for locations without permanent electricity sources.

What are electrical Spider boxes?

These electrical spider boxes are built with rugged enclosures to withstand harsh conditions and feature multiple outlets for efficient power distribution. Easy to transport and set up, our spider boxes meet industry safety standards, ensuring a dependable power source for any temporary setup, enhancing operational efficiency and safety.

What are load master TM series portable power distribution boxes?

Load Master™ Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads. These temporary power distribution boxes feature 1, 3 or 4 adjustable circuit breakers, with a range of amperage and voltage ratings.

What are Hubbell wiring device-Kellems Spider boxes?

Explore Hubbell Wiring Device-Kellems' spider boxes, built to provide reliable and versatile temporary power solutions in demanding environments like construction sites and outdoor events. These electrical spider boxes are built with rugged enclosures to withstand harsh conditions and feature multiple outlets for efficient power distribution.

Are Lex portable power distribution boxes waterproof?

Lex products portable power distribution units have NEMA 3R, 3R Weather Resistant or 3R Rainproof environmental ratings depending on the distro box. The indoor distro boxes have a NEMA 1 Indoor environmental rating, like the

versatile 100 amp 3 phase PowerHOUSE™ Pagoda portable distribution box.

How many amps does a power distribution box have?

Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe. Load Master™ Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads.
