Price of solar panels on rooftops in Poland

Overview

Price per watt: The average cost of solar panels in Poland is around \$2.96 per watt (as of May 2024). Poland Solar Photovoltaic (PV) Power Market Outlook 2024 - 2033. Are photovoltaic panels available in Poland?

Marta Walendziewicz, Board Member of Menlo Electric, explores the availability of photovoltaic panels, trends, and challenges in the Polish photovoltaic market and the importance of choosing the right inverter. As we move further into 2023, the photovoltaics market in Europe and Poland has seen a range of fluctuations in prices.

Is the photovoltaic market changing in Poland?

As we take an up-close look, it can be noted that as the photovoltaic market in Poland evolves, there is a noticeable shift towards adopting newer trends in residential and ground-mounted installations.

Is there a demand for photovoltaic inverters in Poland?

As the photovoltaic market in Poland continues to evolve, the demand for inverters in the 20-150 kW range for commercial installations has largely been met with improved availability. However, as mentioned earlier, the market still experiences shortages of inverters above 200 kW, which can result in waiting times of over a year.

Who can apply for a photovoltaic installation in Poland?

The program is dedicated to households in Poland. Only domestic persons generating electricity for their own needs can become beneficiaries. You can apply for the program even if you purchased the installation after February 1, 2020. This means that you can qualify for the costs already incurred for a photovoltaic installation.

How much does a 5 kWp solar panel cost?

Panel manufacturers recommend overstating the rated power of the

installation by about 25-30%. Therefore, I will present here a cost estimate for a set with a rated power of 5 KWP, instead of 4 KWP as indicated by the annual consumption. The cost of setting up such an installation can range from 15 to even 30 thousand zlotys.

What's happening in the PV market in Poland in 2023?

The PV market in Poland continues to evolve. The PV market in Europe and Poland has experienced significant fluctuations in prices in 2023. Marta Walendziewicz, Board Member of Menlo Electric, explores the availability of photovoltaic panels, trends, and challenges in the Polish photovoltaic market and the importance of choosing the right inverter.
