# Prices of rooftop solar panels in Ukraine

## Overview

---

Now the price of high-quality ready-to-build solar projects is at the level of Euro 40-50 thousand per 1 MW (depending on capacity, cost of connection, location, and other factors). But one should note that far from all the projects are at the level where such prices can be offered.

Now the price of high-quality ready-to-build solar projects is at the level of Euro 40-50 thousand per 1 MW (depending on capacity, cost of connection, location, and other factors). But one should note that far from all the projects are at the level where such prices can be offered.

In the catalog of the online store "SUV" collected compact panels of well-known brands: What to pay attention to buying a solar panel?

deciding to buy a solar panel, it should be borne in mind that the maximum power is indicated in the specification in W. The higher the power, the more expensive.

With about 1,500 MW of perspective and 400 MW of operating solar projects in the database, we are able to directly monitor sales dynamics and prices in this segment. Demand for ready-to-build projects with all the documents to begin construction, has fallen markedly since the beginning of the year. Who can use a solar panel in Ukraine?

In Ukraine, according to current legislation, any individual who owns a house or property where they use a solar panel with a maximum capacity of 30 kW has the right to receive the "Green Tariff". Legal entities using solar panels do not have these power limitations. The exception is power above 150 kW (requires a license).

Which countries install solar panels in Ukraine?

Georgia, Ghana, Kazakhstan, U. Belarus, Lithuania, Latvia, M. List of Ukrainian solar panel installers - showing companies in Ukraine that undertake solar panel installation, including rooftop and standalone solar systems.

How to get a loan for solar power plants in Ukraine?

Documents required to obtain a loan for solar power plants To obtain a loan, you need: - Passport of a citizen of Ukraine (an ID card is acceptable); - Certificate of identification number (TIN) assignment; - A document on income and withholdings for the last 6 months; - Invoice or contract for the purchase and installation of equipment;.

Do you need a permit to install solar panels in Ukraine?

The Cabinet of Ministers encourages the installation of solar power plants by both individuals and legal entities. Starting from July 1, 2023, no permit is required to install solar panels with a capacity of up to 30 kW in Ukraine, and preferential "zero" loans for households are issued for the purchase of equipment with a capacity of 1-10 kW.

How much does a solar power plant cost?

The cost of a mini-station based on a portable charging station, which will meet the minimum needs of a family with gas heating in winter, is about 100 thousand UAH. A small solar power plant with a turnkey inverter costs about \$5,000. It is worth noting that most houses have enough power from 5 to 15 kW.
