Russian crystalline silicon solar panel manufacturer

Overview

Who is solar silicon technologies?

Solar Silicon technologies, LLC is the Russian manufacturer producing and selling monocrystalline and multicrystalline silicon wafers for solar energy market. Modern production site is located in the Central part of the Russian Federation, on the territory of the former PCMP plant in Podolsk.

Are solar panels transforming the solar energy sector in Russia?

The solar energy sector in Russia is witnessing a significant transformation, marking a pivotal shift towards renewable energy sources. Amidst this change, solar panels have emerged as a cornerstone for solar power generation, fostering a dynamic environment for manufacturers and supply chain centers across the country.

Is Russia a good place to make solar panels?

Russia is one of the top countries in terms of renewable energy production. It is one of the top producers in the EU and the rest of the world. Therefore, there is a wide array of equipment suppliers and distributors in and out of Russia for those looking to make solar installations.

Who makes solar panels?

Trina Solar. Founded in 1997, Trina Solar Ltd. delivers PV products, applications, and services to promote global sustainable development. China Sunergy. Founded in 2006, China Sunergy specializes in creating solar cells from silicon wafers, and they both use monocrystalline and multi-crystalline silicon solar cells for this.

Where is Russia's solar industry located?

Moscow, the capital city, stands at the forefront of Russia's solar industry's supply chain dynamics. This city is a strategic hub, connecting manufacturers with a vast network of distributors, retailers, and end-users.

How is the solar industry evolving in Russia?

The solar industry in Russia is evolving, marked by strategic supply chain centers, leading manufacturers like Hevel Group, essential industry fairs, and a significant partnership with China.
