# Slovenia Energy Storage Battery

## Overview

---

State-owned utility and power generator HSE is targeting 800MW of flexibility assets across Slovenia by 2035, including pumped hydro energy storage (PHES) and battery energy storage systems (BESS).

State-owned utility and power generator HSE is targeting 800MW of flexibility assets across Slovenia by 2035, including pumped hydro energy storage (PHES) and battery energy storage systems (BESS).

One of five hydropower sites HSE operates through subsidiary Soška Elektrarne Nova Gorica. Image: HSE. State-owned utility and power generator HSE is targeting 800MW of flexibility assets across Slovenia by 2035, including pumped hydro energy storage (PHES) and battery energy storage systems.

Slovenia's Ministry of the Environment, Climate and Energy, in cooperation with electricity market operator Borzen, has allocated nearly EUR 17 million in grants for businesses planning to install battery storage systems. The grants are intended for the purchase and installation of battery storage.

Slovenia's state-owned utility HSE is driving the country's energy transition with the deployment of 800MW of energy storage by 2035, including 590MW of pumped hydro energy storage (PHES) and 150MW of battery energy storage (BESS). This effort complements Slovenia's renewable energy expansion.

A bear wanders through Slovenia's Julian Alps while solar panels quietly charge lithium batteries that'll power nearby villages at night. This isn't a fairy tale - it's 2025's energy reality. Slovenia's solar energy storage sector is booming, with lithium battery installations growing 27%.

GSL ENERGY Delivers a 480kWh C&I BESS Battery Energy Storage System in Slovenia In the picturesque landscape of Slovenia, renewable energy is taking center stage as businesses seek sustainable solutions for their energy needs. GSL ENERGY recently deployed a 480kWh C&I BESS battery energy storage.

June 15, 2023: The European Commission said on June 9 it had approved a

€150 million (\$163 million) state-aid scheme to develop battery storage and renewables in Slovenia. This follows a spate of recent approvals for EU member states to support battery storage-related projects, amid concerns the.
