

Kongres Container

Solar panels 500-600 watts

LIQUID/AIR COOLING

PROTECTION IP54/IP55

PCS EMS

BATTERY /6000 CYCLES

Overview

Market Positioning in 2025: While 750W+ panels are now commercially available, 600W panels remain a mainstream choice offering proven reliability and cost-effectiveness, with conversion efficiencies up to 25% through advanced N-type and half-cell technologies.
