# Somalia plans to build energy storage power station

## Overview

---

Somalia Opens Tender for 10 MW Hybrid Solar Project with Battery Storage  
Somalia's Ministry of Energy and Water Resources has launched a significant tender for a large-scale hybrid solar and battery energy storage project in northeastern Somalia.

Somalia Opens Tender for 10 MW Hybrid Solar Project with Battery Storage  
Somalia's Ministry of Energy and Water Resources has launched a significant tender for a large-scale hybrid solar and battery energy storage project in northeastern Somalia.

The 2.8 MW plant includes battery storage and diesel backup and is expected to transition to state ownership after 15 years. (Photo courtesy of Kube Energy/ World Bank) Mogadishu (HOL) — Somalia plans to triple its renewable energy capacity by 2030, aiming to reduce high electricity costs, expand.

Pictured is a solar power plant of Beco, the largest electricity supplier in Somalia. The World Bank backed 55 MW AC solar and storage project will be built for Beco. (Photo Credit: Beco) The Ministry of Energy and Water Resources in Somalia has invited eligible bidders to build a hybrid 55 MW AC.

This Horn of Africa nation is making serious moves in renewable energy. With blistering sunshine 300+ days a year, Somalia's betting big on solar-plus-storage projects to rebuild its power sector. And here's the kicker: the World Bank's pouring millions into making it happen [1] [3]. 2025's already.

air energy storage (LAES) plant in the UK. The funding, led by the UK Infrastructure generation after sunset or in bad weather. The hybrid sol clean energy and improve service delivery. GEF and UNDP support will contribute to t e achiev 100MWp, with an investment of \$40 million. Pending th far at.

Somalia has unveiled an ambitious plan to reduce its reliance on diesel and triple its renewable energy capacity by 2030, signaling a transformative shift toward sustainable development and energy independence. The strategy, developed in partnership with the International Renewable Energy Agency.
