# Southern Europe Power Station Energy Storage Equipment Company

## Overview

---

Who is energy storage company?

Founded: 2011, Headquartered in Ningde, Fujian Province, it is a company that provides full-scenario energy storage system solutions, including generation-side, grid-side, and user-side energy storage. Capacity: Over 400 GWh (globally deployed, planned to exceed 800 GWh by 2025).

Who makes the best battery energy storage system?

As the top battery energy storage system manufacturer, The company is renowned for its comprehensive energy solutions, supported by advanced industrial facilities in Shenzhen, Heyuan, and Hefei. Grevault, a subsidiary of Huntkey, is a leader in the battery energy storage sector.

What is the European energy inventory storage dataset based on?

Disclaimer: The European Energy Inventory Storage dataset is mainly based on public data and data from Wood Mackenzie. Wood Mackenzie Limited, subject to any additional data modifications and/or input provided by the EC or any of its authorised 3rd party contributor. Last update: 15/10/2025.

Why is ESS a key component of energy storage systems?

Benefiting from European fiscal and policy incentives, the continent's energy transition is accelerating, the share of renewables is surging, and the demand for Energy Storage Systems (ESS) is experiencing explosive growth. As the core component of ESS, the brand landscape of battery cells profoundly influences market trends.

How much energy does SSE Renewables produce a year?

With an existing portfolio of about 4.5GW in onshore and offshore wind, hydro power, and micro pumped hydro storage, SSE Renewables produces around 10TWh of renewable energy annually. The company is also developing nearly 15GW of new projects and exploring over 13GW of additional potential sites.

What is the market position of energy storage battery cell?

Market Position: Ranks among the top five globally in energy storage battery cell shipments, continuously strengthening its presence in the European market. Application Area: Primarily expanding into European utility-scale storage projects, providing cell products for large power stations, and gradually increasing market share.
