Southern Europe lithium battery pack customization

Overview

Who makes custom lithium-ion battery packs?

As a pioneer in future-ready power solutions, CMB is your trusted partner for custom lithium-ion battery packs. CMB's 21700 Li-ion battery packs offer advanced lithium-ion battery technology in compact and high-energy-density packaging. They provide superior power and longevity suitable for various applications.

What is a lithium battery pack design?

The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements. This includes intrinsically safe designs for harsh environments, custom battery chargers, custom molded enclosures up to IP68 for extreme protection, and complex battery management systems to ensure safety and longevity.

Why should you choose CMB for a custom lithium-ion battery pack?

Whether for small or large orders, we offer competitive pricing and on-time delivery. As a pioneer in future-ready power solutions, CMB is your trusted partner for custom lithium-ion battery packs. CMB's 21700 Li-ion battery packs offer advanced lithium-ion battery technology in compact and high-energy-density packaging.

What is a custom battery pack assembly service?

CMB's custom battery pack assembly services involve evaluating battery chemistries, casing design, and management systems based on customer needs. The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements.

What are rechargeable lithium-ion batteries used for?

Rechargeable lithium-ion batteries find extensive use across a broad spectrum of applications. Some of the areas where our battery systems excel include:

Our power packs are ideal for medical carts, handheld devices, surgical equipment, monitoring devices, and more. We have the ISO 13485 certificate for manufacturing batteries for medical devices.

Which lithium ion battery should I Choose?

Build Now! We only use the best quality lithium cells. They offer more energy and ensure that your device lasts as long as it should. If you need the batteries that needs to be charged really fast, this is your best choice. Grade A cells allow rapid charging. The demand for lithium ion batteries has been increasing lately.
