

## Kongres Container

# Spanish solar energy storage equipment

## Overview

---

On August 6, 2025, Spain's Ministry for the Ecological Transition and the Demographic Challenge (MITECO) approved €148.5 million in funding for 199 pioneering solar-plus-storage projects, firmly establishing battery energy storage systems (BESS) as a mandatory component of next-generation renewable energy infrastructure. What are the top 10 energy storage manufacturers in Spain?

The article will explore top 10 energy storage manufacturers in Spain including e22 energy storage solutions, Iberdrola, Cegasa, HESSte, Uriel Renovables, Matrix Renewables, Gransolar Group, Grenergy Renovables, Landatu Solar, Power Electronics. You can also check the following top list in our website to know more information:.

What is energy storage in Spain?

It targets large-scale energy storage projects in Spain. It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage (PHES), and thermal energy storage. The program supports hybrid projects, which combine storage with renewable energy, such as solar or wind farms.

Why should Spain invest in energy storage?

Investing in energy storage helps Spain meet its climate goals. This includes achieving carbon neutrality by 2050. Storing renewable energy instead of wasting it helps the country rely less on fossil fuels. This also cuts down greenhouse gas emissions. Pumped hydro, thermal storage, and battery systems are effective technologies.

What is Casablanca solar power plant – thermal energy storage system?

The Casablanca Solar Power Plant – Thermal Energy Storage System is a 50,000kW molten salt thermal storage energy storage project located in Talarrubias, Badajoz, Spain. The thermal energy storage battery storage project uses molten salt thermal storage storage technology.

What is La Africana solar power plant - thermal energy storage system?

The La Africana Solar Power Plant - Thermal Energy Storage System is a 50,000kW molten salt thermal storage energy storage project located in Posadas, Spain. The thermal energy storage battery storage project uses molten salt thermal storage storage technology. The project will be commissioned in 2012.

What is Caceres solar power plant - thermal energy storage system?

The Caceres Solar Power Plant - Thermal Energy Storage System is a 50,000kW molten salt thermal storage energy storage project located in Caceres, Valdeobispo, Extremadura, Spain. The thermal energy storage battery storage project uses molten salt thermal storage storage technology. The project will be commissioned in 2013.
