Uganda s first solar energy storage project

Overview

SAN FRANCISCO, CA, UNITED STATES, August 7, 2025 / EINPresswire.com / — The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power plant integrated with 250 megawatt-hours (MWh).

SAN FRANCISCO, CA, UNITED STATES, August 7, 2025 / EINPresswire.com / — The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power plant integrated with 250 megawatt-hours (MWh).

The Government of Uganda has authorized the development of a 100 MWp solar PV and 250 MWh battery storage project. A major solar-plus-storage has been approved by the Government of Uganda, with the project set for Kapeeka Sub-County, Nakaseke District, approximately 62 kilometers northwest of.

In a major step toward transforming its energy sector, the Government of Uganda has approved the development of a 100-megawatt (MW) solar photovoltaic power plant coupled with a 250 megawatt-hour (MWh) battery energy storage system. The facility, to be built in Kapeeka, marks the first phase of.

SAN FRANCISCO, CA, UNITED STATES, August 7, 2025 / EINPresswire.com / — The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power plant integrated with 250 megawatt-hours (MWh) of battery energy.

The government directive marks the start of Phase I in a national programme to deploy more than 1GW of solar-plus-storage capacity The Government of Uganda has issued a Gazetted Policy Direction authorising the development of a 100-megawatt-peak (MWp) solar PV plant with 250 megawatt-hours (MWh) of.

Uganda has approved a major 100 MW solar project featuring a 250 MWh

battery storage system. This ambitious initiative is designed to bolster grid stability and accelerate the country's transition to renewable energy. The large-scale battery storage is crucial for addressing the intermittent nature.

The 24 MWp Ituka solar photovoltaic project will be the first solar PV project in the West Nile region. The project financing was secured during COP28 with Emerging Africa Infrastructure Fund. Dubai, United Arab Emirates; August 2nd, 2024: AMEA Power, one of the fastest-growing renewable energy.
