Is renewable capacity growing in Ukraine?

Installed renewable capacity in Ukraine is growing. This was the message from Maksym Sysoiev, partner at global law firm Dentons, at the 'Large Scale Solar Summit Central Eastern Europe' (LSS CEE) late last year, hosted by PV Tech Power publisher, Solar Media. "Despite the odds," Sysoiev added, new solar plants are being implemented and completed.

Is Ukraine a good place to invest in solar power?

Ukraine has a range of incentives designed to encourage investment in solar power facilities. Since the country is one of the top locations for solar panel installation, this market holds a great deal of potential for any developer looking to enter the industry. Gudzovka has a peak capacity of 24.3 MW,

which is enough to power around 23,000 homes.

What happened to the south Ukrainian wind power plant?

The prospective South Ukrainian Wind Power Plant sits idle and unfinished. Installed but left uncovered, the massive concrete bases of some of the never-completed towers resemble abandoned archeological digs. Friendly Wind Technologies, the only turbine manufacturer in Ukraine, similarly found itself imperiled.
